

Counselling Centre for Psychotropic Substance Abusers

Hoi Kwan (Peer Counsellor)

I used to be a drug addict. When I thought that it was the end of my life, I have joined "Igniting Hearts" group and joined the family volunteer team at later time. And then I was trained as a peer counsellor. Just like the name of "Igniting Hearts", it is a name full of hope and my hope was rekindled as well. We encourage and support each other like brothers and sisters that makes "Igniting Hearts" like a family with full of love. We often say, "No one will be left out." We wish we can work together to help people in despair and rekindle their hopes. Being a love community is the motto of "Igniting Hearts".
