Introduction of Agency

Hong Kong Children and Youth Services was established in 1978 and is a diversified social service organization. We provide a wide range of services across various districts in Hong Kong, including center-based services, outreach and home care services, school support, and residential care services, catering to the diverse needs of children, youth, families, and the elderly.

We uphold a user-oriented approach, dedicated to serving the community with professionalism and commitment. We continuously strive for excellence and innovation, collaborating with stakeholders to build an inclusive and sustainable environment that enhances family functioning and fosters individuals to develop their full potential, while collectively making significant contributions to society.

Purpose and Objectives of Service

To provide early identification and assistance to children and families with welfare needs, enhance child protection work.

To develop Social-Emotional Learning skills for children.

To develop effective parenting skills, enhance parent-child relationships and communication skills, strengthen the family relationship.

To support school personnel for early identification, handle the needs of children and families and crisis management.

Target Service Users

- Pre-primary children
- Their parents/ carers/families
- School personnel

Service Delivery

Provide Stationing Service at Pre-primary Institutions:

Including casework service, professional consultation service and developmental / supportive / therapeutic groups and programmes, including children emotional and social development group, parent-child activities, parents support, professional development for personnel for child protection, etc. Introduce community resources and multi-disciplinary professional support service.
